

InnovaSafe achieves 8 years of outstanding growth

January 25, 2009 – (Valencia, CA, USA) InnovaSafe Technology Escrow Services proudly announces the start of its 9th year in business and the first annual anniversary in the new, secure, research and development facility the firm bought in 2007 to accommodate continued rapid expansion. InnovaSafe is one of the nation's largest providers of software and technology escrow services.

The company has enjoyed double digit sales increases every year since its beginning in 2001. "Earning our clients' trust by providing personal, customized and discreet services has produced outstanding growth," said John Stulman, InnovaSafe founder and CEO. "Our goal is to make transactions go smoothly, give sound advice and assist our customers conclude deals in a cost effective manner," said Stulman. "Our new facility enables us to do the things we need to do to bring our vision as a global leader to fruition."

In the U.S. and internationally InnovaSafe provides state-of-the art solutions for software and technology escrow, software/hardware verification; secure inspection of source code as well as business continuity, availability through a Tier III data center.

Concludes Stulman, "We serve clients around the globe from Los Angeles to Tel Aviv and from London to Singapore."
